Organizational Announcement

Please join me in welcoming Charles (Charlie) Smith to the Quality and Regulatory team at Medacta USA as an Associate Quality Systems Engineer.

Charlie brings nearly 10 years of medical device experience to Medacta USA. Charlie began his career with NuVasive after serving with the U.S. Army as a helicopter mechanic. At NuVasive, Charlie started as a Quality Control Inspector I, and served in various roles from QC team Lead, IOS Repair technician, to Associate Quality Control Manager. Most recently with Medacta USA, Charlie supported the Memphis logistics team in the role of Distribution Clerk.

Charlie's strong work ethic, desire to improve processes, and his attention to detail are a welcome addition to the Quality and Regulatory team.

Please help me in congratulating Charlie on his new role with Medacta USA!

Chris Lussier

Director, Quality and Regulatory
