Organizational Announcement

It's a pleasure to announce that Carley Baldwin is rejoining Medacta USA as a Marketing Specialist. She will be working on a part-time basis reporting to Matt Delong, Vice President – Product Management.

Upon graduation from the Medical Sales College in 2014, Carley was recruited by our Sales Agent in Colorado where she worked as a Spine Sales Representative. Carley's territory had no prior sales and she quickly built an impressive revenue base becoming one of our top sales performers. Carley subsequently joined Medacta USA and was promoted to the position of Product Manager – Spine. She was most effective in the role and her contributions have been sincerely missed since leaving the organization in August 2017 for medical reasons. Carley has bravely fought back, completed a challenging rehabilitation, and is ready to return to work!

Carley earned her Bachelor's Degree in in Physiology from the University of Arizona. She currently resides in Denver, Colorado with her family.

Its wonderful to welcome Carley back to the organization. Her industry knowledge, experience, and genuinely positive attitude will be a great addition to our growing team. Please join me in wishing her continued success in this new role.

Eric Dremel
President
