### **Organizational Announcement**

I would like to introduce Brandon Jones, who recently joined the Research and Development Department as the MySolutions Technologist. Brandon will be assuming administrative responsibilities for MyKnee and MySpine, and will be the first point of contact for Sales Force and Marketing personnel utilizing these product platforms. With significant CT and MRI experience, Brandon is well-suited to assist the sales teams as you validate new imaging centers and troubleshoot issues encountered by existing users.

With over 20 years of work experience, Brandon spent his first 10 years in various Sales and Marketing capacities before deciding to change direction, becoming a Registered Technologist in Radiography and Magnetic Resonance. For the past 11 years, he has been working in medical imaging and clinical management. Brandon is a graduate of Middle Tennessee State University with a BS in Public Relations, as well as a MBA from Lipscomb University.

Brandon is a Middle Tennessee native, and lives near the Franklin office with his wife and their two children. In his free time, he bicycles, practices karate (he is a 4th degree black belt), chauffeurs his kids, and works on getting his 2nd novel past the first chapter, where it's been for roughly a year now.

Please join me in welcoming Brandon to Medacta. You can reach him at [bjones@medacta.us.com](mailto:bjones@medacta.us.com) or 615-714-0276.

John Gauger  
Vice President, Research and Development
