Organizational Announcement

Please join me in welcoming Noor Ismail to the Quality and Regulatory team at Medacta USA as a Regulatory Associate.

Noor brings 3+ years of medical device operations experience to Medacta USA. Noor began her career as a legal assistant for a local law firm and then worked with Medtronic as a Customer Account Specialist. Noor also completed her MBA in May of 2018. At Medacta USA, Noor will support the US regulatory efforts, such as: 510(k) submissions to the FDA, device listing and establishment registration, and the continuous improvement efforts of the QA / RA team. Noor will work out of the Memphis Distribution Center.

Noor's strong work ethic, desire to add value to the organization she supports, and her attention to detail are a welcome addition to the Quality and Regulatory team.

Please help me welcome Noor to Medacta USA!

Chris Lussier

Director, Quality and Regulatory
