Organizational Announcement

I am pleased to announce the promotion of Bobby Clanton to Team Leader, Distribution. Bobby joined the Medacta team in September 2015 to assist with the transition of distribution operations to Memphis, Tennessee. His immediate focus was on instrument loaner kit processing where he ensured all product in and out of Memphis was handled with utmost care. He is the go-to person for all questions regarding instrument sets and will be a great leader for the inbound area.

In his new role, Bobby will report to me and will be responsible for the loaner inbound area (implants and Instruments), and instrumentation receipts (CSP, Field returns).

Please join me in congratulating Bobby on this well-deserved promotion.

Daniel Stover
Associate Manager, Distribution
