Organizational Announcement

I am pleased to announce the promotion of Shane Davis to Team Leader, Distribution. Shane joined the Medacta team in February 2016 as an outbound processor. He immediately took ownership of the area and learned all the warehouse processes. He has continually demonstrated his eagerness to learn new processes and a willingness to shift priorities to ensure the success of the operation. Shane's hardwork and "can-do attitude" will be instrumental in driving our continued growth.

In his new role, Shane will report to me and be responsible for receiving (CSP shipments, Field returns) Demo inventory and Loaner Kit builds.

Please join me in congratulating Shane on this well-deserved promotion.

Daniel Stover
Associate Manager, Distribution
