### **Organizational Announcement**

It's my pleasure to introduce Dan Brokaw as the newest member of our Corporate Accounts team. Dan will be supporting both the Spine and Joints Division as Corporate Accounts – Senior Analyst. Dan will be reporting to me and will be relocating to our Nashville Headquarters in 2020.

Dan brings to Medacta an exciting background with over 20 years combined experience in both the hospital setting at Edward-Elmhurst Health and with joint reconstruction while at Zimmer Biomet. As a Senior Purchasing Business Analyst at Edward Elmhurst, Dan conducted supplier price negotiations, generated RFPs and managed supplier relationships. At Zimmer Biomet, he managed all aspects of contract and pricing negotiations for a Zimmer Distributor in the greater Chicago Area.

Dan will provide a unique perspective to our Corporate Accounts team as Medacta USA continues to grow, while facing pricing challenges in a more complex contracting environment.

Dan and his wife are busy with three teenagers, all involved in sports, and he coaches whenever possible. He is also on a quest to go to all 30 MLB parks.

Please help me in welcoming Dan to the Medacta USA team!

Matt McCarthy  
Director, Corporate Accounts
