

January 29, 2020

**Organizational Announcement**

It is my pleasure to introduce Stephen Roach as Director, Clinical Research at Medacta USA.

Steve has over 25 years of clinical research experience in pharma and medical devices. He joins Medacta USA from his own private consultancy. Prior to consulting, Steve spent 12 years in orthopedic device development with BioMimetic Therapeutics and Wright Medical as Director of Clinical Affairs.

Steve and family have called Nashville home for 24 years. He and his wife are preparing for the empty nest when their youngest heads to college in August. Time will tell how he fills his free time without his daughter's community theatre and swim meets, or his son's travel for baseball and ice hockey.

Please help me in welcoming Steve to Medacta USA!

John Gauger

Vice President

Research and Development
