Organizational Announcement

It's my pleasure to announce Chad Casey has joined Medacta USA, as the Area Director – East. Chad succeeds and will report to Steve Kirschner, Vice President of Sales – Joints. Chad began his career in April 2001, when he joined Surgical Resources of Pennsylvania (BIOMET Distributor) as a territory manager. In 2005, he became Vice President and co-owner of that same distributorship. In 2009, Chad decided to join Biomet in a corporate role as the US Director of Sales for the Sports Medicine division. In 2012 he served as the US Field Marketing Director for the Sports, Extremities and Trauma divisions. Since the Zimmer Biomet merger, he served as the East Region Commercialization Director and most recently as a Regional Sales Director for Large Joint, Extremities and Sports Medicine Divisions.

Prior to his orthopedic career, Chad served our country in the United States Marine Corps, from 1994 to 2001. He and his family are based in Lancaster, PA. Please join me in welcoming Chad to the organization!

Matt Goudy
Executive Vice President
